Consulting-Specifying Engineer Presents the 2017 Product of the Year Winners

Downers Grove, Ill.—*Consulting-Specifying Engineer* has announced the 2017 Product of the Year winners. These 49 individual products—selected by the print and digital audience of *Consulting-Specifying Engineer*—were culled from a large field of finalists by qualified engineers and building professionals who specify products and systems for nonresidential facilities. Products were released in the 2016 calendar year, nominated in February 2017, and voted on by readers starting in April 2017.

Winners of the 13th annual *Consulting-Specifying Engineer* Product of the Year awards included an outdoor charging station, a scaling monitoring system, and an emergency signaling system, among other notable technologies. Each of the winning innovations has been designed to improve quality, lengthen lifecycles, and increase efficiencies. All winners appear in the September 2017 print issue and digital edition of *Consulting-Specifying Engineer*, and are highlighted in detail at www.csemag.com/POY.

Product categories include air movement, dehumidification, humidification; BAS, controls, energy management; chillers; electrical: cable, wire, components; electrical distribution; electrical: fuses, circuit breakers, safety; emergency, on-site, standby power; equipment-level sensors and controls; fire, life safety, mass notification; HVAC; lighting and luminaires; lighting controls; plumbing and water management; pumps, pump controls; software: design, modeling, analysis; and test instruments, meters, data loggers. The 2017 MVP (most valuable product) was awarded to Schneider Electric for its medium-voltage switchgear called Premset. This product received the most reader votes of all the products.

About *Consulting-Specifying Engineer*

Consulting-Specifying Engineer (www.csemag.com) is a print and online publication serving the nonresidential building industry. It covers mechanical, electrical, plumbing, and fire/life safety engineering for commercial, industrial, government, health care, and high-tech buildings. *Consulting-Specifying Engineer* is published by CFE Media LLC. CFE Media LLC publishes *Consulting-Specifying Engineer*, *Control Engineering*, *Oil & Gas Engineering*, and *Plant Engineering* content on a regular basis to more than 434,000 qualified subscribers. CFE Media LLC produces a wide range of weekly and monthly enewsletters, videos, live events, webcasts, blogs, and virtual events on www.csemag.com, www.controleng.com, www.oilandgaseng.com, and www.plantengineering.com.
